[We Think You
Should Know...](#)

Greetings from the Chair

I want to thank everyone who attended the meeting in Las Vegas. I hope everyone had a great time. Once again, PACE is facing changes. Beginning in September, we will be joining our meetings with PICE. Our meeting days will change to Monday, Tuesday and Wednesday. And also, we are moving from October to September.

The Education Committee has been working together with the PICE Education Committee to plan another information packed meeting. We have topics such as "Coping with Stress and Time Management". We will have a collection agency panel available for your questions. We will also have a presentation from a local bank on the extension of credit and the current climate of extending credit. We will also have an open forum for discussion of topics submitted by members.

The Marketing Committee has been working with ABC-Amega to build our membership. KDM is our newest member. The Marketing Committee is a very dedicated group of people, working very hard to build our membership.

If you haven't already attended one of Rob's seminars on using the PACE website, you should make a point to be a part of his next one. It is very beneficial to teach you new tools and refresh you memory on others.

Have a Great Summer and I hope to see you all in September.
